About CLESTRA

As a global construction partner, Clestra delivers highly-performant, future-proof spaces for its clients around the world.

We leverage **Modular Construction** and **Circularity** to ensure your workspaces will remain agile along their lifecycle.

Construction-related emissions have reached alarming levels. Clestra limits the environmental footprint of your workplace with waste-free construction systems, designed to comply with stringent environmental standards.

Modular demountable partitions

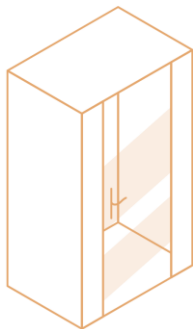

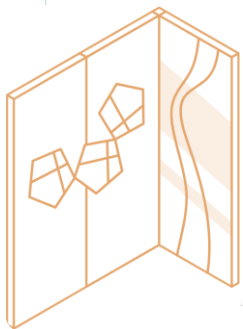

Modular acoustic PODs

Enhanced Modular Workspaces

Our teams install Aura Air solutions together with our Modular Interior solutions to enhance your workspaces.

Combine Aura Air with Modular partitions and Acoustic PODs to create your future-proof space:
